EXAMINER

ART UNIT PAPER

1644 11282005

DATE MAILED:

Please find below and/or attached an Office communication concerning this application or proceeding.

Commissioner for Patents

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office Action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 9/13/05 has been entered.

Applicant's amendment, filed 9/13/05, is acknowledged.

Claims 2-4, 6-11 and 16-30 have been canceled.

Claims 1 has been amended.

Claims 1, 5, and 12-15 are pending.

However, the submission of the RCE is not a fully responsive submision because of the following matter(s).

Applicant has canceled all claims drawn to the originally elected invention ("methods of enhancing a humoral immune response or CD4 Th1 immune response") and switched to a " method of suppressing a humoral immune response or CD4 Th1 immune response".

It is noted that applicant elected methods of enhancing immune responses and only traversed the requirement that a specific class and type of antigen be elected in applicant's Response to the Restriction Requirement, filed 11/3/03.

Applicant's attempt to present claims for a different invention is not fully responsive in accordance with 37 CFR 1.145 and MPEP 706.07(h)(VI)(B). Applicant cannot switch inventions.

Since the above-mentioned reply appears to be bona fide attempt to provide a complete reply to the piror Office Action, applicant is given a shortened statutory period of ONE (1) MONTH or THIRTY (30) DAYS from the mailing date of this letter, whichever is longer within which to submit a complete reply. This shortened statutory period for reply supersedes the time period set in the prior OfficeAction. This time period may be extended pursuant to 37 CFR 1.136(a).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Phillip Gabel whose telephone number is (571) 272-0844. The examiner can normally be reached Monday through Thursday from 7:30 am to 6:00 pm. A message may be left on the examiner's voice mail service. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Christina Chan can be reached on (571) 272-0841.

The fax number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
